Vol. 28, No. 1

Editorial
Research on technique of sterilization to traditional chinese medicine by electrostatic method
W. Yan, W. Xilu and X. Bin 1
Field analysis for the electrostatic eccentric drive micromotor ("Wobble Motor")
R.H. Price, S.J. Cunningham and S.C. Jacobsen 7
The split segmented roller: a device for measuring lateral charge distribution on a moving web
K.L. Clum and R.J. Pazda 39
Golay coded electrostatic sensor arrays for cross-correlation flow measurement
W. Balachandran, D.C. Heale and W.J. Szajnowski 47
Electrostatic ignition hazards in road tanker loading: Part 1. Review and experimental measurements
H.L. Walmsley and J.S. Mills 61
Short Communication
ER fluids in the squeeze-flow mode: an application to vibration isolation
R. Stanway, J.L. Sproston, M.J. Prendergast, J.R. Case and C.E. Wilne 89

Calendar 95
Announcement 97

Vol. 28, No. 2

Electrostatic ignition hazards in road tanker loading: Part 2. Statistical analysis for standard conditions
H.L. Walmsley and K.E. Gregory 99
Electrostatic ignition hazards in road tanker loading: Part 3. The variation of risk with loading conditions
H.L. Walmsley and K.E. Gregory 125
Unipolar wire to plane corona: accuracy of simple approximations
H.J. Wintle 149
Experimental discussion on maximum surface charge density of fine particles sustainable in normal atmosphere
N. Hamamoto, Y. Nakajima and T. Sato 161
Effect of surface conduction on charge relaxation in partially filled vessels
R.J. Pazda and T.B. Jones 175
On the mechanism of space charge generation and neutralization in a coaxial cylindrical configuration in air
V.M. Cabrera and V. Cooray 187

Calendar 197

Vol. 28, No. 3 — Special Issue on the 1991 EOS/ESD Symposium. Part I

Preface
Electrostatic discharge: a charge driven phenomenon
W.D. Greason 199
Protecting N-channel output transistors from ESD damage
M.S. Strauss and M.H. White 219
Detection of ESD-induced noncatastrophic damage in p-channel power MOSFETs
D. Zupac, K.W. Baum, R.D. Schrimpf and K.F. Galloway 241
Mechanisms of charged-device electrostatic discharges
R.G. Renninger 253
Physics of electro-thermal effects in ESD protection devices
B. Krabbenborg, R. Beltman, P. Wolbert and T. Mouthaan 285
Beyond MIL HBM testing: how to evaluate the real capability of protection structures
L.R. Avery 301

Report on the IOP Seminar: Elimination of Electrostatic Problems in Packaging (May 1992, UK)
N. Wilson 313
Report on the ESA 1992 Conference on Electrostatics (June 1992, USA)
G.S.P. Castle 317
